they suppose they can pursuade to join their order. Their first arguments are, the alarming strides of the eathories in the United States; the dangerous influences of the Pope of Rome over the members of the Catholie church; the disposition of foreigners to grasp after the offices of the country; the clannish action of foreigners, and the dangerous influences, of their associa ions and societie ; their ignorance, infidelity and moral depravity and to then concl. de by urging the necessity on the part of native born citizens to put down the Catholics, the foreigners, and all men who are, or who have been their political triends and associates. After having thoroughly filted the mind of the prosolyte with these views, and his ears with such arguments, they proceed slowly and cautiously, inch by inch, to poison his mind against the principles and policy of the democratic party, and use every influence of their order to induce him to vote with them for their chosen candiates, always chosen with a design to break down and defeat the democratic ticket. They know they could not opera e upon an honest democrat, by direct means to desert his principles, and they assume this mask to inveigle him into the support of their men.

Many democrats have already discovered their nefarious intentions and have left them in utt r disgust, giving as a reason for leaving them, that they were deceived in the objects of the society, and that they found out that it was to be made a political machine to pull down the democratic party and democratic principles. It is a gross traud upon the public, it is anti-republican and Anti-American, and every sensible and prudent democrat should be cautious enough to have no connection with it, or with its managers.

No Party.

Every person who knows any thing about history, and politics in the nobler sense, knows that a republican government never has existed without political parties. All respectable writers on political ethics agree that a free country cannot exist without parties. Proper party combination is indeed, the very life of civil liberty; and where there are no parties, there either is no freedom, or their will be none in a short time, unless p rties shall arise. Where there are no parties there is comparitively no check upon the conduct of the government, and public functionaries cannot be held to a strict responsibility to the people; because there is no vigilant opposition ealous of the administration, and eager to detect any mal-feasance or noneasance in official servants. The laws, without party action, would petrify into tablets of stone, as unchangeable as the laws of the Medes and Per-

And yet there used to be a party in this country who cried out "no party" and there is now a hydra-headed faction, and an anti-republican conspiracy of fools and traitors, who cry out "no party," and denounce the Democratic party for proscrbing them in conferring the offices and emoluments of the government. Now the democratic party is one having a fixed creed of principles established upon strong necessity, and confirmed by long experience of their expediency and justness; and must that party, when it has struggled for its principles till they are adopted by the people as the best code of policy for the government, turn round and choose the men who apposed them in their struggle, and are opposed to their prin iples and policy, to carry those principles and that policy into operation? And if they do not do this are they to be accused of proscription? No man of a spark of intelligence or a spoonful of brains, would expect them to do one, or accuse them of the other. That infamous conspiracy of traitors to their country, of traitors to the genius of liberty, and to the hopes of prosort of argument when, with face too brazen for the flush of shame, they at-

The several townships are recommended hold township meetings to select delegates to the County Convention. When this cannot be done for the want of time, every Democrat who can come from the townships, should make it his duty to attend.

COUNTY COMMITTEE.

The Duplicity
We yesterday published the platforms of the two conventions on the subject of temperance. That of the Democratic State Convention is plain and frank. The convention expressed its opinion against the Maine law in unequivocal terms, but recognises the duty of the Legislature to pass laws for the restraint and correction of the evil. The late abelition convention, has so word-

ed its resolution upon the subject of temperarce as to be enabled to take and advocate to the question, either in favor of the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy, and to suppose that the people are the doctine of "search, seizure, confiscation phrenzy cumstances and localities might justify. That this was their intention is evident from the cies of human creation in the United States; language of the resolution, and from the fact that our forefathers and even we had never you may just receive that propos that had they desired to endorse the "Maine known or heard of such things. Law," it would have been so easy to have said so. They insert the word "judicious" and then proper that our readers should see for they declare against the traffic as a beverage, but not an open manly declaration in favor of the Maine Law is to be found. Since the and of the Catholic religion, we transcribe passage of this two-faced and hypocritical re- three several extracts from their newspaper, solution, we see that the leading Mains law printed at Boston, dated the 15th of July, men have not abated their ardor in behalf of the anti-Democratic party. He gave the usual attempt thought that these prominent men in the sent broadcast over the land and is plenty in thought that these prominent men in the temperance ranks, are not honest in their profeesions of devotion to the temperance cause, and we are more firmly convinced now than ever that we were right. The Democratic Convention was abused by them for not passing a resolution endorsing the platform of the sale denunciation of whole nations and clases had been fixed on Paul. The chief's sagaci State Temperance Convention; it was called a whisky convention. The issue was declared by them to be the principles of "seizure, confiscation and destruction." They wanted no half way resolutions, and they called on the Democracy of the State, to abandon their ter. In the Western States there are as ter. party tieket—come out from the foul party, and vote with them for the Maine Law! Their appeals and arguments seemed to be imbued with the spirit of temperance, philanthropy and piety. The Democratic State Convention was held up to public scorn and some country and as American system. They are in the Mestern States there are as many Germans as Irish. They are either as a great thing, Roman Catholics or Infidely; and in opinions, habits, customs, aims and aspirations, they are anything but American. Their whole policy, so far as exhibited in politics and religion, is in direct antagon—the American system. They are in the American system. They are in the American system.

of the 12th of January, they will forget to remember that a State Temperance Convention, without distinction of party ever was held, and will remember to forget that on the 13th of July an Abelition Convention was held, without distinction of temperance. We hall see whether or not such leaders can full the masses.

To this we reply, each individual can contion in favor of or against the Maine Law? To this we reply, each individual can con-

On the other hand, a very great many are lispleased by the resolution—think it is not trong enough-think the Convention enleavored to slide over the issue, and treated the Temperance Convention of the 12th of January, at which so many thousand dollars were raised to aid the cause, with disrespect.

Wonder if any of that money is, or will be, directly or indirectly, intentionally or unintentionally used in the election of anti Nebrasks candidates to the Legislature, Congress or State Offices!

It was confidently expected by the majority of Maine Law men in this State, that the Abolition Convention which met on the 13th of July, would pass a resolution in favor of the law. They did n't do it.

After the refusal of the Democratic Convention to endorse the platform of the Temperance party, the Temperance Union called on the people to rally without distinction, &c., and elect men to the Legislature on the temperance who feel no safety of property or person while a Roman Catholic remains under their roof. Many have already discharged their domestics. perance issue, solely. It is a little strange that the Union does not condemn the action of and make the same call against the "Anti-Nebraska Convention,"

From the Democratic Platform. Know Nothingism.

Our Nation has fallen upon evil times. In 1852 the American people—the Democracy in particular, took special care to vindicate hemselves from the charge of Native Americanism, in the election of Gen. Pierce over Gen. Scott, Nothing contributed more to the overwhelming defeat which fell upon Gen. Scott, than his Astor House Native American sentiments. We had thought that the people had sufficiently rebuked this miserable heresy; but there are those who are determined to stand another trial upon this old issue. They have added secrecy to their injustice—they combine under the cloak of alumbus ledges. all over the country, propagating their sentiments and avowing their ostensible doctrines. And most terrible doctrines they are. Such mendacious charges as the American people never before witnessed, and which, we think they never will countenance or sus-

Convention was held up to public scorn and odium, by these white-washed reformers, because of the adoption of a so called Whishy resolution. But the "Whishy and scater" resolution of the abolition convention is all right in their estimation. They understand what "judicious" means and suppressing the "traffic as a beverage?"

They interpret that resolution to be in fover of the Maint Lant! What do you think of such men? Are they uncophisticated or not? Or, do you not see that they were actuated by selfish and political motives, and that they suppress. There is far more intelligence stantly leading stantly leading the stantly leading the wine to become such, but as Germans, not as those who wish to become such, but as Germans, so that is the stantly leading the country, not as Americans, not as those who wish to become such, but as Germans, so that is the stantly leading that the sealth to the genius of our country, not as Americans, not as those who wish to become such, but as Germans, seath to the stantly leading that the stantly leading that the stantly leading that the stantly leading that they we fear as Germans, not as those who wish to become such, but as Germans, so the stantly leading that the stantly leading that they be out to the processes of life. We need to look starply at this matter.

In Otio, Indiana, Illinois, Missouri, Wiscouri, Wiscouri, and there are nearly three humans and lows t

strue it as he pleases. We have heard a few of the leading men of the Maine law party, express themselves as satisfied with the resolution—"perfectly satisfied." To be sure, all such men make great allowances for the motive of the Convention in paying great regard to policy.

On the other hand, a very great many are must make some exceptions, but these, as the saying is, prove rather than weaken the rule. They are the tools of priestly craft and cupidity; and bound up as they are in superstition, are readily made to perform any act which the church may dictate.

American ladies should be a little more willing to labor, and thus dispense with these dangerous girls in their families.

STARTLING DISCLOURS BY THE CATHOLICS.—A very respectable and well known merchant of this city, who resides in North Bridgewater, Mass., informs us that no little excitement exists in that town, owing to the extraordinary disclosures recently mad by some Catholic female domestics. The were asked, "if the Priest told you to poiso our families, would you do it?" and nineteen out of twenty answered 'Yes.' They were then asked. "What would become of you?" and the answer was, "Oh, the Priest would take care of us!" This trank and apparently honest avowal of the supreme power of the Priest over their subjects, has very naturally cause ties, and others are preparing to do so immediately. We also learn that the removal of all Catholics from the Shoe Factories in North Bridgewater is contemplated .- Boston pape This shows the power, the infernal

of Priests over their plient, superstitions, craven followers. The doctrine of the Priest is "You may commit any crime, and for a good price I will wipe out all the sin, and make you better than ever.—Know Nothing.

Of the Schuyler and Peverlly affairs, need not be reminded. The trouble all arises from the character of that class of men who have, of late into the strife of election to oppose men to whom all effective means of accomplishing a purpose, are fair enough. But it ought not to be so. ANTIQUITY OF THE KNOW NOTHINGS .- The Philadelphia Sun, the Organ of Native Americanism and Know Nothingism in the city of Brotherly Love, in speaking of the antiquity of the Know Nothings, says:

"The mysterious order appears to have been known in the days of Macbeth, and are tercourse with Malcom and Macduff, in England, where they had fied to escape the vengeance of the tyrant king, is asked, "stands Scotland where it did?" to which he replies:

Almost afraid to know itself! It cannot Be carled our mether, but our grave: where nothing it who know nothing, is once seen to smile.

"As Queen Victoria is said to be a lineal descendant of Fleance, the son of Banquo, who escaped the murderers set on him by Macbeth, we begin to think the Know Nothings must be under British influence, and are kept in fee by the sovereign of Great Britain."

RADWAY'S RENOVATIG RESOLVENT.

We have sain that for all chronic complaints, we recommend our Resolvent. The Resolvent reselves away all disea ed deposits that have been lingering in the system for an enemy, or forty years.

You will, after this description, we hope, appreciate the name we have given to the second of the R. R. R. Remedies of Renovating Resolvent. It resolves away diseases deposing it unfees the blood, and it ren varies the system. Tunners are removed and discussed by its operation; Chronic swellings are dissipated; Nodes are solvened and medical away.
